

Spiritual, Moral, Social and Cultural

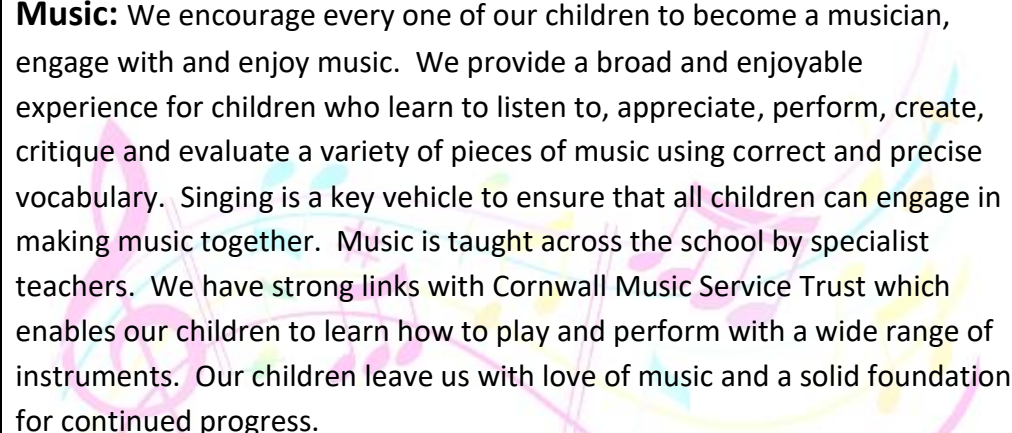

RE: At St Breward, Religious Education develops our children's knowledge and understanding of Christianity and other religions and traditions around the world. We enhance some areas of Religious Education with trips to places of worship and by inviting visitors in to speak. This area of our curriculum helps children to develop their sense of identity and belonging and enables them to flourish individually and within a community. It helps to prepare our children for adult life by developing respect for and sensitivity to others and acceptance of other faiths. Our planning is guided by the Agreed RE 2020 Cornwall Syllabus.

PSHE: At St Breward, we fervently believe that the personal, social and health education (PSHE) of our children underpins all their learning and is central in preparing our children so that they are afforded the greatest opportunity to reach their full potential and become productive and caring citizens living in today's culturally diverse society. We recognise that the PSHE programme is just one part of what a school can do to help a child to develop the knowledge, skills, attitudes and understanding they need to fulfil their potential. We link the PSHE education programme to all areas of the curriculum, other whole school approaches, to pastoral support, and to provide a setting where the responsible choice becomes the easy choice.

PE: A high quality Physical Education curriculum can inspire all pupils to succeed and excel, not only in competitive sport and other physically demanding activities but in everyday life. It also supports their mental health. At St Breward, we strive to deliver quality Physical Education and school sport games with the aim to develop each child in terms of their physical ability, enjoyment of sport and competitiveness. We provide opportunities for our children to become physically confident on a way that supports their health and fitness in a range of contexts. We know that participation in physical education and sport can help to improve a huge range of social skills, and allows children to become self-managers and critical thinkers.

Music: We encourage every one of our children to become a musician, engage with and enjoy music. We provide a broad and enjoyable experience for children who learn to listen to, appreciate, perform, create, critique and evaluate a variety of pieces of music using correct and precise vocabulary. Singing is a key vehicle to ensure that all children can engage in making music together. Music is taught across the school by specialist teachers. We have strong links with Cornwall Music Service Trust which enables our children to learn how to play and perform with a wide range of instruments. Our children leave us with love of music and a solid foundation for continued progress.
